# THE COMPLETION

TORY MESSAGES SENT.

The final splice in the Commercial Pacific Cable Company's trans-Pacific cable was made at 4:30 o'clock July 4. The Anglia, after successfully landing the cable at San Souci in the murning as described in the Star of that day steamed at once to where the deep sea end from Midway had been buoyed off Barber's Point. The sea was caim and conditions favorable. The splice was made a little sooner than was expected. DR. M. J. J. MARLIER DE ROUTON, The Star on Saturday stated that it was the expectation that communication would be established with Midway any time from 5:20 to 6:30. The splice was made at 4:39, and tests from the San Souci station were at once begun, proved satisfactory, and communica-tion was opened between the Honolulu office and the stations to the west of us at 5:98. Very soon congratulatory cables were being sent. One of the first messages sent was from President Roosevelt, at Oyster Bay, R. I., to Clar-ence H. Mackay at New York, seventy miles dstant, around the world by way of Honolulu. It took just twelve rela-utes to send it including all the relays in its course. Mr. Mackay's reply was sent the other way around the world, taking just nine minutes to make the circuit, Following the President's mes-sages, those filed here and elsewhere awaiting the opening of the communcation were sent.

The following is the congratulatory cable sent by President Roosevelt to Moana Hotel Governor Take and the latter's reply. OYSTER BAY, L. I., July 4-To Taft, Manila: I open the American Pacific Cable with greetings to you and the people of the Philippines.

It is not inappropriate to in-corporate in this first message across the Pacific from the Philippines to America, an earnest plea for the reduc-tion of the tariff on Filipino products in accordance with the broad and lib-eral spirit which the American people pines and of which you have been an earnest exponent.
